I member of the Trai Communist Party states that Canan Manapruek, a Chinese Communist Party member, has been assigned to promote an organization in Thailand to be designated as an anti-Fascist, anti-Imperialist United Front.  25X1A  Comment. No additional information has been received to substantiate the formation of a United Front movement nor have any efforts to promote such a program been reported. A possible explanation may be that Covernment action against the Chuan Min Pac editors has intimidated the would-be organizers of the United Front movement. Sanan absented himself for a time from his usual haunts and it was believed that he had gone underground. Three weeks later, however, he was discovered visiting at the home of Supha Siritanon, editor of Alsorn San, a pro-Communist morthly review of international affairs. At that the was bustly serking support and assistance for the two Chuan Min Pac editors who were threatened with departation.
